

Friday 23rd February

Personal Porter

Your Personal Porter is a new service aiming to reduce the long queues at check-in, move passengers quicker through airports and make travel easier. The

New global door-to-door luggage delivery service offers travellers an online and seamless global door-to-door luggage delivery service with tracking via SMS. Your luggage is collected from your home, and arrives at your destination.

The service bypasses traditional check-in by picking up your luggage at your home or office and delivering it to the destination of your choice, ahead of your own arrival.

With more than 204,000 pieces of luggage are lost or stolen every year, and over 30 million bags mishandled annually this could be the solution for hassle-free travel. It holds particular appeal for those with limited mobility, young children, and bulky items such as surfboards and golf clubs.

For conditions of transit and prices, find out more at the [Personal Porter](#) website.
